PROFESSIONAL SUMMARY

Detail-oriented Front-End Developer with expertise in HTML, CSS, JavaScript and React. Committed to creating visually appealing and user-friendly web applications, and staying current with industry trends. Eager to collaborate with a dynamic team and enhance digital solutions.

PROJECTS

Movie App

- **Added Genre Filtering**: The app has integrated genre filtering, allowing users to narrow down their movie choices by specific categories, thus improving the browsing experience.

- **Contributed to User Experience with Favorite Lists**: Users can add movies to a personalized favorite list, providing a convenient way to keep track of preferred films.

- **Produced Review Management**: Users can write and delete movie reviews, enhancing their engagement with the platform and enabling them to share their thoughts with others.

- **Generated Trailer Access**: The app has also added a feature that allows users to watch trailers, enhancing the overall movie exploration experience.

EXPERIENCE

CNC operator, FlexBelt Vejle, 2021 - Present

- **Maximizing Efficiency**: By optimizing CNC programs and overseeing machine operations, I've significantly reduced production time. This increased efficiency allows us to deliver orders promptly, saving the company valuable time and resources.
- **Cost-Effective Solutions**: My role in programming and process management has led to cost savings through optimized material usage and reduced manual labor. The company benefits from minimized production costs, enhancing our bottom line.
- **Competitive Edge**: Our CNC capabilities, under my guidance, have provided us with a substantial competitive advantage. We consistently deliver top-notch products on time, leading to greater customer satisfaction and improved company performance.
